

PP-1195-MFill6

Polypropylene Compound Reinforced with Mineral Powder

Silent sewage pipes, Sheets, Profiles

Technical Data Sheet

Product Description

PP-1195-MFill6 is Polypropylene based Compound in Natural color and filled with 60% of fine mineral Powder. This compound combines good mechanical and thermal properties, as well as dimensional stability, stiffness, detergent/chemical resistance and high sound insulation properties.

General

Material Status: Available
Processing Method: Extrusion
Filler: Mineral Powder
Form: Pellet
Color: Natural

Properties	Nominal Value	Test Method
-------------------	----------------------	--------------------

Density	1.8 g/cm ³ (±0.01)	ASTM D792
---------	-------------------------------	-----------

MFI (230°C/ 2.16kg)	0.7 g/10 min (±0.1)	ASTM D1238
---------------------	---------------------	------------

Filler Content	60 % (±3)	ASTM D5630
----------------	-----------	------------

Izod Impact,Notched	30 kJ/m ² (±2)	ISO 180
---------------------	---------------------------	---------

Tensile Strength @Yield	15 MPa	ASTM D638
-------------------------	--------	-----------

Flammability	HB	UL 94
--------------	----	-------

.....
Typical Properties: These values are not to be considered as product specifications
